

I first found Dom through the Gum Tree when I moved into a flat and needed someone to come in and do some general jobs like fixing a light, sorting out a leak in the bathroom and putting up a television on the wall. I had previously had two different people in to fix the leak and neither found the source of the problem. I carried on using Dom over the 4 years as he was always reliable, could complete any job that needed doing and very reasonably priced. I recently brought a house with my partner that needed lots of work done including, rewiring, re-plastering, damp proofing, a new bathroom, cupboards and shelves built and total redecoration.

I contacted Dom who came to see us the day we moved in and in the next few weeks we saw him several times to discuss what we were wanting, dates, timing and price. Happy with them all we moved back out and have Dom and his men come in and completely transform our house over the course of 6 weeks.

I am really pleased with the results and would highly recommend Dom if you are looking to do any type of work within your house. We are looking to do more work on the outside of the house in the near future including fixing a roof and building a new porch and will not hesitate to ask Dom to carry out the work for us.

I would be happy for Dom to pass on my details to anyone who would like a verbal reference.

Ellen
