

I asked Dominic to do a small job for me: disassembling the floor on my patio area to allow the council to check on a draining pipe underneath. Then putting it back together the following day and paint it to finish. I needed the job to be done quickly and Dominic was willing to fit my small work between other commitments. He did a very good job and I am planning to use him again if anything else comes up. I would recommend him to other people as well.
