

**I understand that you are looking for Dominic to do some work for you, and he has asked me to provide a reference, which I am more than happy to do. We asked Dom to fit some recessed ceiling lights for us , block up a doorway in our hall. Last time we asked to fit new power shower and new radiator in our bathroom and some tiling and then fix lights in garden and decorate our bedroom. He did such a good job. We also asked him to lay some flooring throughout our hallway, living room and sitting room. Again, I can only commend him work, which we found to be to a very high standard. We had previously used the "services" of a local east-end builder, who let us down badly on a number of occasions, was dirty, expensive and frequently late. What a refreshing change when we used Dom! And what a better standard of work. We are very pleased with the work that Dom did for us, and are planning to use him again for some other projects. I was happy to leave our key with Dom and have already recommended him to some of our friends. If you would like to come and view Dom's work, please let me know, and you are most welcome to pop round to us - we are in Ropery Street, E3. If you would like to give me a call, please also feel free to do so .**

**I hope the above puts your mind at rest.**

**Kind regards, Andrew**
